**TRADES
WORKING
TOGETHER**

Our Purpose

If you are reading this, someone thinks very highly of you, both personally and professionally. You are a leader, teacher, organizer, and friend.

This club was reborn in November of 2005 with the hope of getting foremen to unite and work as a team. No matter what trade you are in, cooperation on the jobsite will help overall attitude and morale. Working together can accomplish more than going it alone. As Union members, we all strive to meet the expectations of others.

The organization of, and membership to this club gives us a chance to meet on a personal basis, to get involved and be committed to bettering our lives and profession.

Outreach

Our goal is to publicize our effort of all trades working together as a team. We are striving to bring back ideas of craftsmanship and efficiency with the various Union names. Eliminating the modern stereotype of Union workers is one of our main goals. We hope for dedication to projects, the growth of our Union trades, and the praise that comes with being a great worker. Some of the projects we are looking forward to are Habitat for Humanity, Red Cross efforts, F.O.P. Youth Programs and the Rebuilding of Dayton.

Meetings

MVFC will be holding bi-monthly meetings and we strongly urge members for input on how we can better serve the community and ideas on how we can grow as a club. Each field represented has a different perspective and we would like to hear from all involved.

How to Join

We would like to have at least one person from all trades. All we ask is that you attend at least three MVFC meetings a year, be open minded, and voice any opinion you might have. We strive to make membership an honor you will enjoy.
